I am Muhammad Syahendra Anindyantoro a Frontend Developer or Frontend Engineer with a Bachelor`s degree in Electrical Engineering and 4 years of experience in IT. I have expertise in using modern technologies such as React and Vue to develop interactive, detailed, and high-quality user interfaces.

My strengths are that I am a hardworking person. I like teams because I can get the job done quickly. I`m a fast learner, and I like challenges. however, I`m not a very good speaker so I`m used to getting to know and building teams so I can communicate well.

With a combination of technical expertise, interpersonal skills, and a passion for learning, I remain committed to my work.
